

iDISPLAY™ Advertising Displays

15.6" 18.5" 21.5"

The compact all-in-one Android Advertising Displays are a great solution for brands and retailers to advertise their digital marketing message in a commercial location. Operating on an Android OS and powered by Pulse technology, these compact screens include all the features of a giant Android tablet, without the touch screen capability. These devices are compatible with standard TV/monitor Vesa brackets and are ready out of the box as soon as you turn on the power. With an integrated media player, a host of built-in signage and connectivity options (embedded WiFi, LAN and 3G USB-dongle), these displays are capable of remote updates for your digital signage content. With high viewing angles and a small footprint, it is well suited as a free standing floor or wall display, in portrait and landscape format.

*3G optional, pending carrier compatibility/availability.
